

FINANCING FIRST NATIONS-LED PROJECTS

Loan Portfolio Update

By Province & Territory | June 30, 2026

| ABOUT US

Our mission

Helping First Nation communities build their own futures on their own terms.

Mandate

To provide financing, investment, and advisory services for those First Nation governments across Canada that voluntarily schedule to the First Nations Fiscal Management Act (FNFMA).

How we operate

Legislation:

Created under the FNFMA with all-party support in 2005, FNFA is a non-profit financial services institution serving First Nations governments.

Leadership:

FNFA's Board of Directors is elected annually from the governing leaders (Chiefs and Councillors) of its borrowing member Nations.

Financing Focus:

- Financing community-driven projects—economic development, equity, housing, infrastructure, etc.
- Long-term, fixed rate financing with repayment terms extending to 30 years+.
- Short-term bridge financing requiring monthly interest-only payments.

NATIONAL LOAN PORTFOLIO

| LENDING STRUCTURE

FNFA is a non-depository financial institution providing financing, investment, and advisory services to First Nations across Canada. Our mandate as a non-profit organization is to offer the best rates possible to our members; we operate a pooled borrowing model to achieve this equitable access to affordable capital for our member's projects.

First Nations is not just a product line to us – it is our sole focus.

Member and Investor Protections

To protect our members and investors we have the following safeguards in place:

1. Unanimous Board of Directors approval for every loan request.
2. Minimum debt coverage ratios (DCR) are used to:
 - calculate borrowing capacity,
 - build in sensitivity of a pledged revenue stream decrease without impacting the ability of the member to make loan payments, and
 - monitor performance of pledged revenues compared to actual DCR throughout the loan life.
3. Pledged revenues flow directly from the source to FNFA to cover loan payments. Excess funds above loan payments are returned to the member.
4. Revenue stream health: Since inception, pledged revenues flowing to FNFA have exceeded annual interest obligations by 3.5+ times.
5. Other revenues available:
 - FNFA intercepts approximately \$464 million out of an aggregate estimated \$2.8 billion* of our members' available revenues.
 - A member is required to substitute a performing revenue stream for a nonperforming stream, if necessary.
6. Debt Reserve Fund (DRF):
 - FNFA withholds five per cent (5%) of every loan for member default protection.
 - Can service interest payments for at least 18 months, if necessary.
 - Repaid to the member, plus earnings, at loan extinguishment.
7. Contingency Fund (CF):
 - available to support borrowing members' loan payments in the event of widespread economic shock.

FNFA has never had to enact any of the protections.

**based on 2023/24 Borrowing Member Financial Statements*

| FREQUENTLY ASKED QUESTIONS

Who governs FNFA?

FNFA was created by First Nations Chiefs and Councillors to offer equitable financing opportunities as other levels of government to First Nations governments. To date, over half of the First Nations communities in Canada have joined the FNFMA. Our members from across the country elect the Board of Directors annually.

The Board is:

Chairperson: Chief Derek Epp, Ch'íyáqtel First Nation, BC

Deputy Chairperson: Councillor William Kaysaywaysemat, Kahkewistahaw First Nation, SK

Directors: Councillor Gayle Bedard, Lax Kw'alaams Band, BC
Chief Gordon BlueSky, Brokenhead Ojibway Nation, MB
Councillor Patrick Brennan, Henvey Inlet First Nation, ON
Councillor Miguel Cocoo, Conseil des Atikamekw de Wemotaci, QC
Councillor Louis LeDoux, Mistawasis Nêhiyawak, SK
Councillor Veronica McGinnis, Osoyoos Indian Band, BC
Councillor Michael Paul, Wasoqopa'q First Nation, NS
Councillor Dawn Styran, Leq'á:mel First Nation, BC

Why borrow from FNFA?

FNFA is a not-for-profit financial institution with a mandate to offer the best rates possible to its members. We have three investment-grade credit ratings which ensures consistent capital markets access to meet its member's project financing requirements.

Can a First Nation borrow from both FNFA and from other lenders?

Yes. We have a number of borrowing members who access FNFA loans for some community priorities, and access Bank loans for other purposes. To protect the First Nation, FNFA and the Bank may sign an Intercreditor Agreement that outlines the security standing behind each loan.

Does FNFA charge fees for memberships or loans?

No. FNFA does not charge fees to be a member or to access a loan with us.

What projects are eligible for financing?

Our members are driving forward new investment opportunities and looking to us for financing. We are able to finance all types of projects from equity investment in major projects to community infrastructure and anywhere in between. Our goal is to work with our member communities to support their priorities.

Can someone from FNFA visit our community?

Absolutely! We have dedicated staff across the country that regularly travel to communities to help answer questions and explain why FNFA may be the right fit for your project financing. Contact our office, request a presentation through our website or connect with the Member Services Manager in your area at (250) 768-5253.

ENVIRONMENTAL, SOCIAL & GOVERNANCE STANDARDS (ESG)

In the finance world ESG is the umbrella that these types of investments fit under. We have seen increased requests from investors for more information on projects FNFA finances to determine if FNFA fits within their ESG categories under their investment policies.

SUSTAINABLE DEVELOPMENT GOALS (SDG)

The SDGs were introduced by the United Nations in 2015 as a call to action to end poverty, protect the planet, and ensure that by 2030 all people enjoy peace and prosperity. This has permeated the financial markets through many investors choosing that a portion of their investment portfolio is held in securities that represent these goals.

ALIGNMENT OF INVESTMENT IN FNFA

The member projects we fund are the definition of these categories – whether it is a wind farm for cleaner energy production, on-reserve housing to reduce overcrowding and improve living conditions, or an economic development project where profits from the project go into community programs for education, health and social services.

FNFA is a non-profit organization that is focused on financing community priorities with a goal for compounding economic prosperity – the inherent nature of FNFA's purpose, mission and mandate is the intent of the sustainable investment category. Many investors recognize an investment in FNFA meets many of their criteria for social, sustainable, and/or impact investing. FNFA's latest issues have all been tagged by Bloomberg as "Sustainable" issues.

In May 2026, it was announced that FNFA won the Environmental Finance, Sustainable Bond of the Year – Agency award for the issuance in June 2025. The award recognizes the "clearly defined social and environmental objectives" which make "this a highly valuable sustainable bond".
